

# The Full Repository Search!!

The Full Repository Name/Number Search searches the entire eForms repository and may return a large number of forms. Please use this search only if you know what you are looking for.

Note: Since the Full Repository Search is searching **across all lines of business**, it may return a large number of forms and not provide exactly what you are looking for. It is highly recommended that you use the EZ, Category, or Advanced Searches per Products or Services. These searches will produce a more precise return.

Some helpful hints.....

## Form Name Search:

The Form Name search matches the Form Name as it appears on eForms.

NOTE: "Less is more" - entering a partial name will give you more results.

## Form Number Search:

The Number search matches the Form Number as it appears on eForms and on the form. Note that special characters with the exception of the dash ( - ) are not acceptable in the Number search field.

NOTE: "Less is more" - entering a partial form number will give you more results.
